Feeling Lucky!

Move over lottery, there's a new kind of luck in town and it's our St Pat's inspired group. Our characters are dipped in gold foils and sprinkled with shiny glitters. Rainbows and charms add bursts of color throughout this comfortable collection of playful tops and french terry pants. Our raglan tees convey a cheerful tone to our characters, while white infused heathered grounds give the scoopneck tee a softer spring feel to the beverage group. If you're feeling lucky, this mix is your pot of gold!

SPRING 2013 INSPIRATION TREND

Color Color Color

Soak yourself in color! Our girl is ready to stash both her umbrella and heavy winter wear and step into a season of brights. These high-voltage hues will energize her whole look with citrus green, turquoise blue, and neon pink. Rainbow foil and bright glitters electrify solid raglan tees and playful striped tanks. Fun doesn't come in small packages, and neither do our graphics. We're showing larger art, playing with proportion and placement. Spring is in the air, and color color color is ready to rock the world.

NOTHING BUT PINK

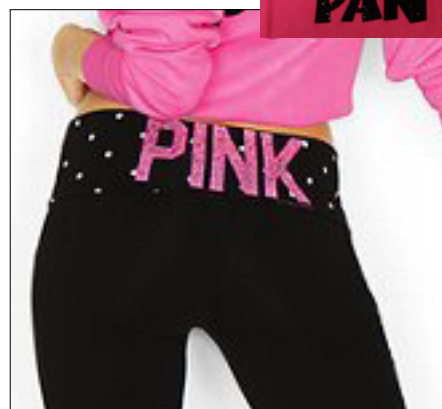

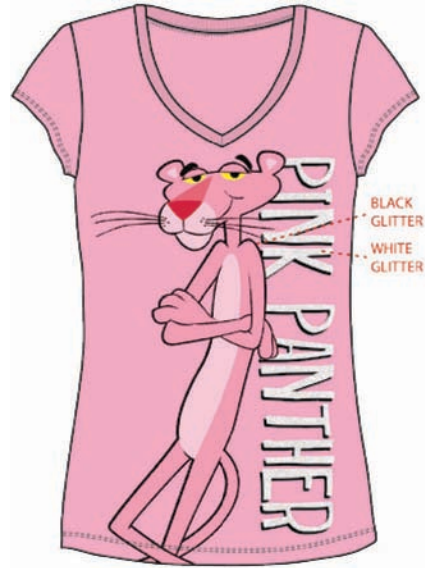

It's no secret, Pink is everywhere! He's slick and smooth, with a dash of mystery- and that is just how this group was developed. Poses of the panther evoke a mischievous confidence, with glitter and rhinestones adding extra pink panache. The yoga pant is kept subtle with hot pink words on black, solid legs and a hint of a pattern or design on the waist, and the top is a youthful cap sleep vneck. Ground colors stay true to his swanky signature look, offering light and bright pinks, as well as cool black. There's no doubt this group is the cat's meow!
